# METAL STAMPING LEVEL II CURRICULUM

**Skills Training for Press Operators & Team Leaders**

**Need to start a training & education program for press operators?**

**Want to improve your current stamping press operator training strategy?**

**Do current operators need to upgrade or refresh their skills and abilities?**

**Does your existing training produce the desired output for better productivity?**

*PMA Educational Foundation* presents the *Metal Stamping Level II Curriculum*. The curriculum is a 30-hour classroom course teaching the basics of metal stamping, plus an additional 20-hours of “hands-on” application exercises. This “curriculum-in-a-box” can be used in-plant, in school or as part of an apprenticeship program. The curriculum requires the use of actual equipment, instruments and materials handling devices. Successful completers may attain recognition from the *National Institute for Metalworking Skills* (NIMS).

The *Metal Stamping Level II Curriculum* consists of 7 learning modules developed by industry experts and designed to meet the standards of the National Institute for Metalworking Skills. This turn-key training package provides the instructor one-stop shopping for teaching. Instructors need not be professional teachers but should be familiar with metal stamping processes, tooling and equipment.

## METAL STAMPING LEVEL II MODULES

**MODULE 201 – THE IMPORTANCE OF ECONOMICS**

**MODULE 202 – MATH & MEASUREMENTS**
